FACIALS

Facials

From

REAOXY

RM350

The reaoxy facial involves infusing the skin with oxygen and specialized serums to hydrate, retivate, and improve overall skin health and appearance.

DERMAPEN

RM490

A handheld device with tiny needles creates micro-injuries to stimulate collagen and elastin, improving skin texture and reduce scars and wrinkles.

MESOPLASMA

RM230

A treatment that combines manually needling and platelet-rich plasma (PRP) enhances collagen production and skin regeneration for improved texture, tone, and overall appearance.

Facial Peels

FIRE & ICE

RM280

The fire and ice facial combines an intensive resurfacing peel with a soothing mask to exfoliate, brighten, and rejuvenate the skin in a single treatment.

PRX-P33 PEEL

RM250

The biorevitalization peel (PRX-T33) is a skin tightening peel without exfoliation. It is an improved formula of trichloroacetic acid (TCA) peel.

AQUA PEEL

RM150

The Aqua Peel facial employs a gentle suction device to exfoliate the skin while simultaneously delivering hydrating serums, effectively removing impurities and promoting a refreshed, glowing complexion.

FACIALS

Facial Peel

From

GLASS SKIN PEEL

RM200

A step-by-step treatment using acids like glycolic, lactic, and salicylic acid exfoliates dead skin cells, boosts cell turnover, and improves texture, tone, and radiance.

CHEMICAL PEEL (20%)

RM170

This treatment applies an acid solution to gently exfoliate dead skin cells, revealing smoother, younger-looking skin and addressing fine lines, acne scars, and sun damage.

Acne

TCA CROSS

RM180

A targeted chemical peel using trichloroacetic acid to effectively treat deep acne scars and improve skin texture for a smoother complexion.

MICRODERMABRASION

RM230

A non-invasive treatment that exfoliates the skin using fine crystals or a diamond wand to reveal smoother, brighter skin and reduce fine lines and scars.

LASER

Laser

From

FRACTIONAL LASER

RM900

This skin rejuvenation technique uses precise laser beams to stimulate collagen production, improving texture, tone, and appearance while reducing signs of aging and damage.

PICO LASER

RM799

A cutting-edge treatment that uses ultra-short pulse technology to effectively target pigmentation, reduce fine lines, and promote skin rejuvenation with minimal downtime.

IPL LASER (FACIAL)

RM350

A non-invasive treatment that uses intense pulsed light to target pigmentation, redness, and fine lines, promoting an even skin tone and a more youthful appearance.

Removal

MILIA

RM280

A simple procedure that involves extracting small, white cysts from the skin's surface to improve texture and appearance.

SKIN TAG

RM390

Skin tag removal is a quick procedure that eliminates small, benign growths on the skin using various methods such as cutting or cauterization.

KELOID

RM200

Involves excising or treating raised scars to reduce their size and improve skin appearance, often using techniques like injections or laser therapy.

LASER

Laser

From

XANTHELASMA

RM500

Xanthelasma tag removal is a treatment that targets and eliminates yellowish fatty deposits on the eyelids using methods like excision or laser for a smoother appearance.

SKIN BOOSTERS

Injectables

From

PROFHILO

RM2000

An injectable treatment that hydrates and tightens the skin by delivering high concentrations of hyaluronic acid, promoting elasticity and a youthful appearance.

Areas: Face, Neck, Hands etc.

REJURAN

RM1500

A skin rejuvenation treatment that uses polynucleotide (PN) to promote healing, improve skin texture, and enhance elasticity for a more youthful look. It not only hydrates but also stimulates the skin's reparative capabilities.

Areas: Face, Neck, Hands etc.

REVOK50

RM1600

Revok50 is a revitalizing skin treatment that combines potent antioxidants and peptides to enhance skin hydration, elasticity, and overall radiance.

Areas: Face, Neck, Hands etc.

BELLAVITA

RM990

Containing Salmon DNA, Glutathione and Hyaluronic acid, this powerful combination is effective at repairing skin cells whilst promoting skin hydration and skin whitening.

Areas: Face, Neck, Hands etc.

PLENHYAGE

RM1800

Plenhyage helps to deeply hydrate the skin, improve skin elasticity, boost collagen production, and enhance overall skin radiance for a smoother, firmer, and healthier-looking complexion.

Areas: Face, Neck, Hands etc.

SKIN BOOSTERS

Injectables

From

LUHILO

RM1800

Luhilo helps to deeply hydrate the skin, improve skin texture, enhance skin elasticity, and restore a healthy, radiant glow for a smoother and more youthful-looking complexion.

Areas: Face, Neck, Hands etc.

LUHILO SNOW

RM2100

A skin rejuvenation treatment that uses polynucleotide (PN) to promote healing, improve skin texture, and enhance elasticity for a more youthful look. It not only hydrates but also stimulates the skin's reparative capabilities.

Areas: Face, Neck, Hands etc.

FACIAL RESHAPING

Sagging & Reshaping

From

FILLERS

RM360++

Dermal fillers used to add volume, smooth wrinkles, and enhance facial contours, resulting in a more youthful appearance.

Areas: Lips, Nose, Cheeks etc.

BOTOX

RM360++

Temporarily relaxes facial muscles to reduce the appearance of wrinkles and fine lines for a smoother, youthful look.

Areas: Furrow, Crow'S Feet, Glabella, Whole Face, Masseter Jaw etc.

THREAD

RM300++

A minimally invasive procedure that uses dissolvable threads to lift and tighten sagging skin, enhancing facial contours for a rejuvenated appearance.

Areas: Undereye, Double Chin, Nose, Nasolabial etc.

RF

RM275++

Radiofrequency (RF) is a non-invasive treatment that use heat to stimulate collagen production, tightening the skin and improving texture for a more youthful appearance.

Areas: Face, Tummy, Buttock etc.

BODY

Weightloss

From

BURN THE FLAB - BODY SCULPTING

RM490

An injectable fat burner treatment designed to reduce localized fat deposits by dissolving fat cells, enhancing body contouring and shaping.

Areas: Double chin, Arms, Waist etc.

WEGOVY

RM999

Wegovy helps support significant weight loss by reducing appetite, controlling cravings, and helping you feel fuller for longer. It can also improve weight management when combined with a healthy diet and regular physical activity.

OZEMPIC

RM1499

Ozempic is a medicine you inject once a week. It helps people with type 2 diabetes lower their blood sugar. It can also help with weight loss. It works by making you feel full and helping your body use insulin better. Some people may feel sick to their stomach or have diarrhea. You should only use it with a doctor's advice.

MOUNJARO

RM1600

Mounjaro is a medication used to treat type 2 diabetes. It works by helping the body regulate blood sugar levels more effectively. Many people also experience weight loss while taking Mounjaro, which can lead to better overall health and reduced risk of diabetes-related complications.

JELITA DIET

RM1600

The diet involves a low-calorie meal plan combined with hormone injections to promote weight loss by suppressing appetite and increasing fat burning.

CRYOLIPO

RM1600

A non-invasive fat reduction treatment that uses controlled cooling to freeze and eliminate stubborn fat cells, contouring the body without surgery.

Areas: Tummy etc

BODY

Self-Care

From

VAGINAL TIGHTENING

RM1250

A non-surgical procedure that uses laser technology to stimulate collagen production and improve vaginal laxity, enhancing comfort and intimacy.

HAIR REMOVAL

RM300

A safe and effective procedure that uses concentrated light beams to target and permanently reduce unwanted hair by damaging hair follicles.

Areas: Underarm, Legs

DERMAPEN STRETCHMARK

RM350

Uses microneedling to stimulate collagen production and improve the appearance of stretch marks, promoting smoother and more even skin texture. Great for postpartum stretchmarks and also post-weightloss excess skin.

Areas: Tummy, Arms, etc

HAIRLOSS

Reinvigorate Your Growning Glory

From

MESOALOPECIA

RM310

A specialized mesotherapy treatment that delivers nutrients and growth factors directly to the scalp to stimulate hair growth and combat hair loss.

PRP HAIR

RM350

Involves injecting platelet-rich plasma derived from the patient's blood into the scalp to promote hair growth and improve hair thickness.

DERMAPEN HAIR

RM350

Dermapen hair treatment uses microneedling to enhance scalp circulation and stimulate hair follicles, promoting hair growth and thickness.

WHY DONT I SEE A MAJOR DIFFERENCE ON MY SKIN?

Achieving the results you're looking for often involves a combination of factors, including the type of treatment and the number of sessions needed. In some cases, our skin responds better to multiple treatments or a combination approach. Let's work together to reassess your goals and create a personalized plan that may include different treatments or additional sessions to help you achieve the results you desire.

F.A.Q'S

HOW LONG DO THESE TREATMENTS LAST?

Typically these treatments normally last for several months depending on the treatment done. They often require a series of sessions for optimal results and may need to be repeated periodically to maintain benefits.

WHAT ARE YOUR PAYMENT TERMS?

We accept cash, debit/credit card, bank transfer, QR & Atome.

WHAT IS THE AFTER-CARE FOLLOWING A TREATMENT?

After an aesthetic treatment, follow your provider's instruction carefully, including skincare routines and activity restrictions. Protect your skin from the sun, stay hydrated, and avoid touching or picking at the treated area. Attend follow-up appointments and prioritize rest and self-care for optimal healing and results.

F.A.Q'S

F I L L E R S O R B O T O X ?

Botox is ideal for treating dynamic wrinkles caused by muscle movement, like frown lines, by relaxing muscles.

Fillers work best for static wrinkles and adding volume, Let's discuss your goals and expectations to determine the most suitable treatment for you.

I ' M S C A R E D O F N E E D L E S . W H A T D O Y O U S U G G E S T ?

If you're nervous about needle aesthetic treatments, there are non-invasive options available: Consider treatments like microdermabrasion or chemical peels for skin rejuvenation without needles. Additionally, topical treatments and skincare regimens can often yield noticeable improvements in skin texture and appearance. Let's explore these options together to find a solution that aligns with your comfort level and skincare goals.

AFTERCARE

CONGRATULATIONS ON COMPLETING YOUR AESTHETIC TREATMENT! TO ENSURE OPTIMAL RESULTS AND A SMOOTH RECOVERY, PLEASE FOLLOW THESE AFTERCARE INSTRUCTIONS CAREFULLY :

1.General Aftercare:

Protect from Sun: Avoid direct sunlight for 2 weeks: use SPF 30+ sunscreen.

No Touching: Don't touch or rub treated areas.

Stay Healthy: Drink water, eat well, and avoid smoking.

2.Specific Tips:

For Facial Treatments:

No Strenuous Activity: avoid vigorous exercise for 1-2 days.

Use Gentle Products: Skip harsh skincare for 1-2 weeks.

Easy on Expressions: Relax facial muscles: avoid massages.

For Laser treatments:

Cool Down: Apply cool compresses: avoid heat for 24-48 hours.

Moisturize: Keep skin hydrated: skip hot showers.

For Injectables:

Avoid Sun and Heat: No sun or heat exposure for 1-2 days.

Gentle Massages: If advised, gently massage treated areas.

AFTERCARE

3. Emergency Contact:

Contact us if you have severe swelling, pain, or signs of infection.

4. Follow-Up:

Schedule follow-up appointments for assessment.

5. Additional Tips:

Stay Informed: Call us with any questions or concerns.

Be Patient: Results take time: stay consistent with care.
